

Second Wind Farm

Second Wind Farm is a small family farm, nestled in the hills just South of Woodstock on Dunham Hill.

We are a grassed based farm, grazing the hills rotationally primarily with Polypay Sheep, Beef Shorthorn Cows and Meat chickens.

We also raise laying hens, enjoy the company of 2 horses and Ani, our Akbash livestock guard dog.

Farmer's are Amy, Ben, Levi and Reno with neighbors and extended family lending a hand. Our goal is to share farm raised food, from happy, healthy animals, to keep the land in use and to teach our children about the natural world.

Your support of the farm, by buying meat products makes it possible for us to continue our dream. Animals are given a full, humane life, lots of sunshine and love. When the time is right we take them gently to a USDA certified meat processing facility.

Spring, Summer and Fall we sell frozen cuts of meat from the single cut to the half or whole animal. Whole, half or bulk packages are encouraged and pre orders are greatly appreciated!! We send out emails when we have meat available for pick up or delivery in the Woodstock area. Primarily we sell directly to the

customer, we do sell to some local restaurants.
